## WHY YOU SHOULD GROW THESE FINER HARDY CHRYSANTHEMUMS

Mums excell all other perennials in the wealth of brilliant color and long lasting cut flowers which they give in the fall. They give so much — so quick — for so little money.

**THOSE GIANT MUMS:** We have the "giants" too, as large as most now being so widely advertised. We give flower sizes which are readily obtainable in the average outdoor garden (not disbudded). Large flowered varieties which we list such as Cortis Rice, Ruth Scott, Y. Butterscotch, Mikado, Bronze Giant, and Marie Hartman, will all yield 4"-5" flowers without disbudding but would give flowers to 5"-8" if disbudded. We omit many large ones because of being "too late", or "not reliably hardy", or "too weak stemmed". Don't buy on size alone.

**PATENTED VARIETIES:** We have omitted patented varieties because we think that you, our customer, should be able to sell or share plants with friends without restrictions. We believe those which we offer are equal to any patented ones on the market and they are more reasonably priced, too.

### SELECTED 1960 HARDY MUM INTRODUCTIONS

We test many new introductions each year and then offer them if good enough. For example we are offering 16 of 30 1959 varieties which we tested during 1959. Obviously we are not able to test all 1960 varieties in so short a time. But we are including here several 1960 introductions that we do think will be of special interest to you, our customers.

**CORTIS RICE** (Lehman 1960) Very large bright buttercup yellow flowers which are excellent for cutting (Ht. 30"; 5" fl.; Sept. 10.)

**RUBY MOUND** (Lehman 1960) Beautiful ruby red flowers on compact cushion plants. (Ht. 18"; 1½" fl.; Sept. 21)

**PURPLE DOME** (Fleming 1960) Prolific bearer of amaranth purple flowers on husky upright semi-cushion plants. (Ht. 18"-24"; 3" fl.; L. Sept.)

**BRONZE GREMLIN** (Bristol 1960) Deep walnut bronze flowers with mahogany eyes. Compact mound type plants. (Ht. 18"; 1½" fl.; Sept. 15)

**MUSTANG** (Viehmeier, Neb. 1960) Very large reddish orange flowers on good cutting stems. Informal decorative. Wind and rain resistant. (Ht. 20"; 4"-6" fl., E. Sept.) Very few available.

(Prices above 5 varieties, 75c ea.; 3 for \$1.50.)

(All mum orders of \$3.00 or more are prepaid. If less add 50c.)

\* Varieties so marked also on trade list.
